ISHIKA GOYAL

goyal.ishika1234@gmail.com | LinkedIn | GitHub | +91-852752511

Product-oriented Computer Science student with experience building full-stack applications and integrating AI features into user-facing products. Strong focus on user experience, feature design, and solving real-world problems through scalable and intuitive solutions.

EDUCATION

Vellore Institute of Technology University, Bhopal *September 2022 - Ongoing*

B.Tech, Department of Computer Science and Engineering *CGPA : 9.11*

Birla Balika Vidyapeeth,Pilani *April 2020 - March 2021*

Class XII Central Board of Secondary Education (CBSE) *Percentage: 93.8%*

Birla Balika Vidyapeeth,Pilani *April 2018 - March 2019*

Class X Central Board of Secondary Education (CBSE) *Percentage: 95.8%*

TECHNICAL SKILLS

Programming Languages: Java, Python, JavaScript, HTML, CSS

Frontend Development: React, Next.js, Tailwind CSS

Product & Project Skills: Product Thinking, Feature Prioritization, User Flow Design, Problem Solving, Stakeholder Communication

Product & UX: Feature Thinking, Data Interpretation

Tools: Power BI, MySQL

PROJECTS

PrepWise- AI Voice Agent Interview Platform

- Built a **full-stack web application** with **authentication**, **dashboards**, and **persistent storage** for interview practice workflows.
- Integrated **external APIs** to handle interview sessions and feedback, ensuring smooth **frontend–backend integration**.
- Designed **modular, reusable components**, implemented **input validation**, and maintained a **scalable, clean architecture**.

WELTH- AI-Powered Finance Platform

- **Developed a database-driven full-stack platform with secure authentication and API-based data access.**
- Implemented **server-side logic**, **data models**, and **CRUD operations** to support financial workflows.
- Focused on **scalable architecture**, responsive UI, and seamless **frontend–backend data flow**.

SkillSync AI- Smart Resume Analyser

- Built a **web application** that processes resumes and job descriptions and displays structured insights through a **user-friendly interface**.
- Implemented **backend services and APIs** for resume parsing, scoring, and feedback generation, consumed by the frontend.
- Emphasized **clean data flow**, **modular design**, and **maintainable code** for long-term scalability.

ACHIEVEMENTS

- ***Won first prize*** *out of* ***25 teams*** *in* ***business pitch*** *held in college*
- ***Co-Lead*** *in* ***content team*** *in freelancing club*
- *Participated in HackOn with Amazon Season5*
- *Secured ELITE+SILVER certificate in NPTEL (Privacy and Security in Online Social Media)*

CERTIFICATIONS

- *Power BI Workshop*
