Education

Vellore Institute of Technology Expected May 2026

Bachelor of Technology in Computer Science & Engineering (CGPA: 9.11 / 10.0)

Project Experience

PrepWise – AI Mock Interview Platform

- Built a full-stack SaaS application with authentication and dashboards, focusing on smooth and intuitive user workflows
- Integrated external APIs for interview sessions and feedback, ensuring reliable performance and handling API errors effectively
- Implemented input validation and improved error handling to reduce user-side issues and enhance overall user experience

Welth – AI-Powered Finance Platform

- Developed a full-stack finance platform with secure authentication and structured data management
- Built and tested REST APIs to ensure consistent data flow and reliable backend performance
- Designed a responsive UI to simplify complex financial workflows and improve user understanding

SkillSync AI – AI-Powered Resume Analyser

- Built a resume analysis tool that processes user inputs and delivers clear, structured insights through an intuitive interface
- Developed backend APIs for parsing and scoring resumes, ensuring accurate and consistent results
- Focused on user-friendly output and error handling to improve usability and decision-making

Leadership Experience

Freelancing Club – Co-Lead Jan 2025 – Jan 2026

Content Team

- Coordinated planning and execution of multiple campus events with 200+ attendees
- Managed team responsibilities, timelines, and event workflows to ensure smooth delivery
- Anchored major events, maintaining structured communication between speakers and audience
- Contributed to improved event organization and team performance leading to club recognition
