PROJECTS

PrepWise- Interview Preparation Platform

- Built a **full-stack web application** with **authentication**, **dashboards**, and **persistent storage** for interview practice workflows.
- Integrated **external APIs** to handle interview sessions and feedback, ensuring smooth **frontend–backend integration**.
- Focused on intuitive UI/UX design to enhance usability and user engagement.
- Applied basic **SEO** principles and performance optimization techniques to improve usability and content structure..

WELTH- AI-Powered Finance Platform

- **Developed a database-driven full-stack platform with secure authentication and API-based data access.**
- Implemented **server-side logic**, **data models**, and **CRUD operations** to support financial workflows.
- Focused on **scalable architecture**, responsive UI, and seamless **frontend–backend data flow**.

SkillSync AI- Smart Resume Analyser

- Built a **web application** that processes resumes and job descriptions and displays structured insights through a **user-friendly interface**.
- Implemented **backend services and APIs** for resume parsing, scoring, and feedback generation, consumed by the frontend.
- Emphasized **clean data flow**, **modular design**, and **maintainable code** for long-term scalability.

ACHIEVEMENTS

- ***Won first prize*** *out of* ***25 teams*** *in* ***business pitch competition*** *held in college*
- ***Co-led content team in freelancing club,*** *contributing to* ***content planning and engagement***
- *Secured ELITE+SILVER certificate in NPTEL (Privacy and Security in Online Social Media)*

CERTIFICATIONS

- *MATLAB Certification*
- *AWS Solutions Architect*
- *Power BI workshop*
