EDUCATION

Vellore Institute of Technology <i>Bachelor of Technology in Computer Science</i>	Sep. 2022 – Present <i>CGPA: 9.16 / 10.0</i>
Birla Balika Vidyapeeth, Pilani <i>Class XII – Central Board of Secondary Education (CBSE)</i>	Apr. 2020 – Mar. 2021 <i>93.8%</i>
Birla Balika Vidyapeeth, Pilani <i>Class X – Central Board of Secondary Education (CBSE)</i>	Apr. 2018 – Mar. 2019 <i>95.8%</i>

PROJECTS

PrepWise | *Next.js, Tailwind, Firebase, Vapi, Gemini API* | [Live Link](#)

- Engineered a real-time AI voice interview platform simulating recruiter-style conversations, generating dynamic role-based questions across **10+ job categories** to help candidates practice effectively.
- Integrated voice processing and AI models to transcribe and analyze candidate responses, delivering instant feedback on communication, confidence, and accuracy with **95%+ transcription accuracy**.
- Deployed on Google Cloud via a Linux VM, achieving **99.9% uptime** with automated daily scheduling and continuous availability.
- Architected a scalable full-stack system with authentication, dashboards, and session tracking, enabling users to manage complete interview history and performance trends across **multiple sessions**.

WELTH | *Next.js, PostgreSQL, Supabase, Gemini API* | [Git Link](#)

- Developed a full-stack AI-powered finance platform to track income, expenses, and manage **multiple accounts** with real-time analytics and interactive dashboards displaying **key financial KPIs**.
- Incorporated AI-driven receipt scanning and smart transaction categorization, reducing manual data entry by **80%** and improving financial insight accuracy.
- Automated email reporting workflows and recurring transaction handling, cutting manual financial review time by **60%** for end users.

SkillSync AI | *React, FastAPI, Python, NLP* | [Git Link](#)

- Built an AI-powered resume analyser that parses resumes against job descriptions, delivering structured skill-match scores and targeted feedback for **faster candidate screening**.
- Designed an NLP-based scoring engine with automated feedback generation, reducing recruiter evaluation time by **40%** per candidate profile.
- Created an intuitive full-stack interface with real-time analysis and actionable recommendations, supporting **multiple file formats** (PDF, DOCX) with sub-second response times.

TECHNICAL SKILLS

Languages: Java, Python, JavaScript

Frontend: React, Next.js, Tailwind CSS, HTML, CSS

Backend & Databases: Node.js, REST APIs, PostgreSQL, MongoDB, MySQL, Firebase, Supabase

Core Skills: Authentication (JWT), Database Design, API Integration, Full-Stack Development

ACHIEVEMENTS

Secured **1st place** out of **25 competing teams** in a college business pitch competition.

Served as **Co-Lead** of the Content Team in the college Freelancing Club, coordinating a team of **8+ members**.

Qualified and participated in **HackOn with Amazon Season 5**, a national-level hackathon.

Earned **ELITE + SILVER** certification in NPTEL – Privacy and Security in Online Social Media (top **5%** of participants).

CERTIFICATIONS

AWS Solutions Architect – Amazon Web Services

Power BI – Microsoft

Rajpath March Certificate
